Objective

Adaptable software engineer with experience working with React and APIs seeking a position in front-end development. Looking to use excellent communication and collaboration skills to meet project deadlines and build front-end software.

Education

Per Scholas | Pittsburgh, PA   **May 2022 to Sept 2022**
- Certificate of Completion - Software Engineering

Skills

- Axios, CSS, Git, HTML, JavaScript, MongoDB, Postman, React

Projects

Movie Buffalo (Axios, CSS, Git, React)   **Live Website   GitHub Repo**
- Utilized several APIs to gather data for movie screenings, streaming services, and movie trailers.
- Led a group of 2 other students and managed the GitHub repository.
- Delegated responsibilities to teammates to meet the given week deadline.

SpotifyMock (Axios, CSS, React)   **Live Website   Github Repo**
- Mockup of Spotify's artist page.
- Integrated a music player that allows playing, pausing, scrubbing, and volume changing of a single song.
- Simulated randomly generated "friend activity" section using API endpoints from Napster and randomuser.me.
- Created custom SVGs that respond to volume level of music playing.

Desktop Drummer (CSS, React)   **Live Website   GitHub Repo**
- Interactive drum app allowing the user to play drums using their keyboard or mouse.
- Features a grid of clickable notes allowing the user to create a four measure drum loop with changeable BPM.

MusicBook (Axios, CSS, MongoDB, Postman, React)   **Live Website   GitHub Repo**
- FullStack project made as a final for Per Scholas.
- User curated music database implementing full CRUD operations.
- Features user registration and login with password encryption using Bcrypt.

Work Experience

Topgolf | Alpharetta, GA   **June 2023 to Present**
- Preparing food accurately in a high speed environment.
- Being a team player in a high stress environment.
- Assuring work is done adhering to food safety regulations.

Basic Carbide Corporation | Buena Vista, PA   **July 2018 to May 2022**
- Wrote over 6,000 G-Code programs, laying out specific actions and xy coordinates for each custom order.
- Mentored 5+ new hires on performing safe and efficient practices.
- Assured product maintained specified measurement tolerance and followed ISO 9001 quality guidelines.

Smithton Truck Stop | Smithton, PA   **January 2014 to October 2017**
- Supervised the handling of all food, alcohol, and fuel transactions to a steady flow of 100+ customers a day.
- Oversaw duties and time management of a team of 6 employees.
- Managed inventory, performed cash receipt, and end-of-day resolutions.
